CHAPTER #

TITLE OF CHAPTER

If your chapter title is longer than one line, press Shift-Enter instead of Enter to begin the second line. This maintains appropriate line spacing in the title.

Type the text of your chapter here.

Replace the number sign above with the appropriate chapter number. Chapter numbers must be Arabic, not Roman.

COMPREHENSIVE LIST OF SOURCES

Change the section title above to “BIBLIOGRAPHY” or “REFERENCES” as desired.

Type the entries for your comprehensive list of sources here, maintaining a hanging indent of 0.5”. Use single spacing within individual entries and double space between entries.

Or use paragraph indentation like this, indenting the first line 0.5” and having turnover lines flush out to the left margin. Double spacing within and between entries is the other option.

APPENDIX A

APPENDIX TITLE

Insert appendices here.

Begin each appendix on a new page, separated from the previous by a page break

(Insert/Page Break).

Center the appendix title within the margins, replacing the number sign in the title above with an A, B, and so on, as appropriate.
